Value proposition: Scalable platform, digital talent, and an ability to deploy data-driven AI powered supply chain.

Growth proof points: Accenture is acquiring at a market-leading pace and serving top global clients.

Key differentiators: Multiple ready-to-deploy, curated Horizon 3 attributes. Accenture’s 360-Degree Value approach embeds sustainability in all engagements. It has also developed over 100 start-up partner relationships.

Outcomes and customer kudos: For a global biopharma company, a digital supply chain solution saved 100,000 doses of a life-saving drug by predicting reactor failure. A 70-to-30-day reduction for drug production via digital twin simulation was also achieved.

Client and partner kudos: An openness to partner and jointly innovate.
